PROFILE

I'm a hard working innovative and ambitious individual. With ten years experience in advertising and design, I feel equally comfortable working within a team as I do alone. I make it a personal goal to constantly strive to achieve the highest quality of results possible. I am sociable, outgoing and love to broaden my horizons. I try to do this by learning whilst experiencing new situations and feel that working within foreign locations & cultures particularly exciting. I'm as eager to learn new techniques and improve my ability as I am to work within the constants of change.
